

Name: ClampOnMount Dual SC

Model Number: #12.1770

Instruction ID: #00.526\_C

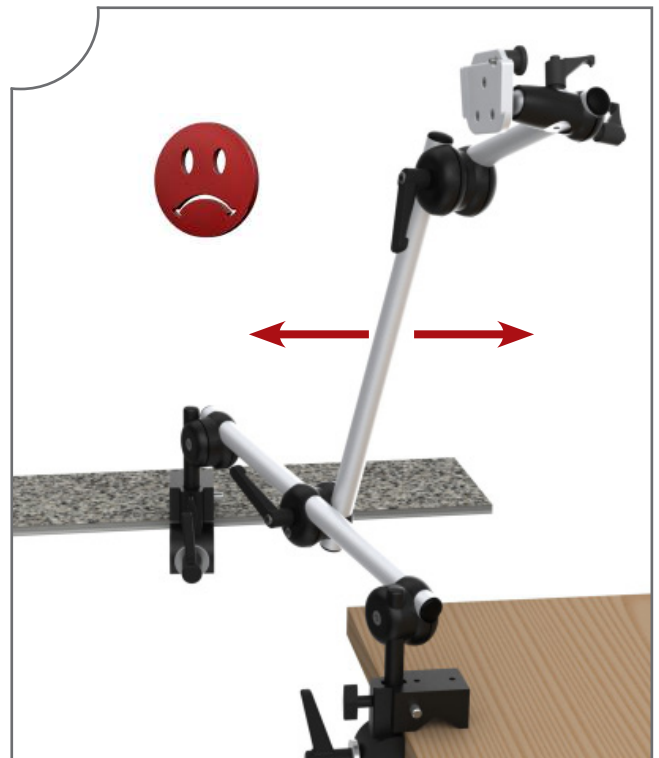

Functional description of locking lever

Tighten screw in order to secure the front part of the tube-coupling

Loosen the lever to adjust vertical tube, it is then possible to move the vertical tube to the left or right.

Tightening the lever, prevents the vertical tube from moving side to side.

Name: ClampOnMount Dual SC

Model Number: #12.1770
